**LOMBARDIA**

Lombardy's Franciacorta region is celebrated for its sparkling wine, produced using the traditional method used in Champagne. The region's wines are characterized by a rich and complex flavor profile, making them a must-try for any wine enthusiast.

**VENETO**

It is home to Prosecco, a sparkling wine made from Glera grapes, that it is typically light, fruity, and refreshing.

**EMILIA ROMAGNA**

Lambrusco di Sorbara "Radice Paltrineri" is a very unique one. Made with the ancestral method, and a low maceration on the skin that makes it a Rosè, it is fresh, mineral and perfect with seafood.

● **TRENTINO - ALTO ADIGE**

Possibly the most beautiful wine region in the world, Alto Adige (aka Südtirol), is where North meets South; in terms of climate, culture, and wine. Eventhough it is one of Italy's smallest winegrowing regions, thanks to its geographical position, it is also one of the most multifaceted. What emerges here are not trendy wines, but rather authentic wines with their own original character. The higher altitudes result in moderate vine growth, a longer maturation period and lower yields. This in turn leads to high levels of concentration in the grapes.

## VENETO

In Veneto, the indigenous red grapes Corvina, Molinara, and Rondinella have a long tradition and are used to produce Valpolicella, Ripasso, and Amarone wines. Amarone is a dense, rich wine made from air-dried, resonated grapes. In addition to reds, you can find amazing, refreshing, aromatic whites and of course, Prosecco, one of the most beloved aperitivos.

## FRIULI

Friuli is a unique wine region located between Veneto, Slovenia, and southern Austria. Its two main sub-regions, Collio and Colli orientali del Friuli, produce light, aromatic wines. Friuli is also known for being the birthplace of skin contact technique, producing darker and more complex wines.

### **SARDINIA**

As the Sardinian saying goes, "When the wind comes from the sea, you can hear voices of strangers, but they are voices that pass." This captures the spirit of the island, where the local culture has been shaped by a rich history of outside influences, including in wine-making. The Phoenicians were the first to bring wine to the island, and today, Sardinia is home to a variety of grape varieties and wine styles. From the crisp Vermentino of the north to the robust Cannonau of the south, each wine reflects the unique terroir and spirit of the island.

### **SICILY**

The history of Sicilian wine runs deep, with evidence of winemaking dating back to Mycenaean traders in 1500 BC. Legend has it that Dionysus himself brought wine and joy to the island, but even without the myth, it's clear that winemaking is an integral part of Sicilian culture. When the Greeks settled in Sicily in the 8th century, they brought with them their love for "oinos" (wine), introducing different grape varieties to the island. Today, Sicilian wines are known for their bold flavors, unique grape varieties, and rich history that is sure to transport you back in time with every sip.
