● **TRENTINO - ALTO ADIGE**

Possibly the most beautiful wine region in the world, Alto Adige (aka Südtirol), is where North meets South; in terms of climate, culture, and wine. Eventhough it is one of Italy's smallest winegrowing regions, thanks to its geographical position, it is also one of the most multifaceted. What emerges here are not trendy wines, but rather authentic wines with their own original character. The higher altitudes result in moderate vine growth, a longer maturation period and lower yields. This in turn leads to high levels of concentration in the grapes.

SARDEGNA

As the Sardinian saying goes, "When the wind comes from the sea, you can hear voices of strangers, but they are voices that pass." This captures the spirit of the island, where the local culture has been shaped by a rich history of outside influences, including in wine-making. The Phoenicians were the first to bring wine to the island, and today, Sardegna is home to a variety of grape varieties and wine styles. From the crisp Vermentino of the north to the robust Cannonau of the south, each wine reflects the unique terroir and spirit of the island.

SICILIA

The history of Sicilian wine runs deep, with evidence of winemaking dating back to Mycenaean traders in 1500 BC. Legend has it that Dionysus himself brought wine and joy to the island, but even without the myth, it's clear that winemaking is an integral part of Sicilian culture. When the Greeks settled in Sicilia in the 8th century, they brought with them their love for "oinos" (wine), introducing different grape varieties to the island. Today, Sicilian wines are known for their bold flavours, unique grape varieties, and rich history that is sure to transport you back in time with every sip.
